HTML, CSS, JavaScript, React, React Styled Components, React Router, Redux Toolkit (Currently Learning)

PROJECTS

Hacker News Browser

Github | Live Demo

- Users can search through the entire Hacker News website.
- Users can also click back and forth through the pages.
- The Front Page is displayed by default.

Alchemist's Field Guide

Github | Live Demo

- Users can search for ingredients either by name or one of its four effects.
- Users are able to filter out compatible ingredients by simply clicking on an ingredient's card.

EDUCATION

Merced College, A.S.T Computer Science— *Degree Incomplete*

JUNE 2017 – DECEMBER 2019, MERCED COLLEGE

Took introductory Computer Science classes in addition to one class on the C++ programming language.

React Tutorial and Projects Course, A.S.T – *John Smilga*

UDEMY

This course taught me everything that I know about React and gave me the confidence to build my own projects. I also took his Styled Components course and now use that library in all my code.

The Complete JavaScript Course — *Jonas Schmedtmann*

UDEMY

This course teaches JavaScript from basic to advanced topics including more modern ES6+ concepts.
